In order to continue helping their 4th graders adequately prepare for the state-wide standardized English Language Arts (ELA) test and the city-wide Math test, P.S. 1 asked APEX to provide a Saturday prep program that would compensate for the loss of their after-school prep program. The main objectives of the 4th Grade Prep Program are to familiarize the students with the ELA and Math proficiency tests and

teach them test-taking strategies to master these two exams.

The guide discusses relevant art-making techniques, specific artists and related art history. The house educator works with artist educators, docents and interns to develop themes for the guided tours, with assistance from the Curatorial Staff. One-hour Guided tours are offered for visiting groups and may be designed in collaboration with educators who have specific goals or objectives for their visit to El Museo. The art on view often becomes a point of departure of discussions about El Barrio, Spanish Harlem, Puerto Rico and Latin America, in general, and the roles of Puerto Ricans and Latinos in the United States.

### **We Provide Support and Advocacy Services**

We support parents through the process of obtaining help, however long the process might take. We provide individual advocacy, including representation at Committee on Special Education meetings, Sub-Committee on Special Education meetings in the schools and procedural hearings when necessary.

### **We Conduct Workshops for Parents and Professionals**

Our training workshops take place in all New York City boroughs. They cover laws, regulations, rights, entitlements and procedures for obtaining educational and other services; the systems serving children and youth birth to 21 with disabilities; and the many kinds of resources available in communities. We present an annual *free* training series of 34 workshops in English and Spanish, and respond to hundreds of requests for specialized training from parent groups, community organizations and public agencies. As part of the New York City Training Collaborative for Early Intervention, we conduct New York State's "Training for Families" about the Early Intervention program for infants and toddlers. Call us for workshop schedules and registration forms, or visit our Web site.

### **We Present Special Events and Conduct Special Projects**

- **Special Camp Fair.** At our annual *free* Special Camp Fair each winter, more than 3,500 parents and professionals talk with camp directors, learn about camps and summer programs for children with disabilities, and receive a *free* copy of our annual *Camps* directory.
- **Center Without Walls (CWW).** With our database on a laptop computer, a traveling library, and a bilingual mobile team from RCSN and Advocates for Children of New York, CWW takes information, training and advocacy services to community-based organizations serving immigrant, minority and at-risk families throughout the city. Call us at (212) 677-4650 to arrange CWW sessions.

### **We Maintain a Reference Library**

Our library and information services are supervised by our director of information services, a professional librarian. Parents, professionals and students are welcome. Please call us to schedule a visit.
